Hi Dominique,

I'm still waiting for comments from EGLE on the PRP's 2020 Annual Monitoring Report - they've let me know that they won't have them ready for another couple of weeks. Please review the report without their comments since EPA will need to provide the PRPs with our approval of their 2021 sampling plan (Table 9 of the report) soon. I've reattached the report and Excel database to this email. If you have any questions let me know.

Also, how has the effort been to bring the older version of the model used at Verona up to date?

Best,
